PROFESSIONAL EXPERIENCE

Full stack developer, *Property loop*

Jan 2025 – present | Remote, UK

- Developed **PDS system** that fetches people data from the NHS via real-time AI bot calls, **reducing call length by 50%**.
- Architected and executed an **automated alert** system using SMS and WhatsApp to resend appointment details to **over 95% of patients** whose calls were disconnected during booking, generating **short URLs** for easy access and reducing operational costs by **30%** by **eliminating** reliance on third-party tools like **Zapier**
- Engineered an **AI agent** to categorize call types as medical, admin (with subtypes), or unknown, leading to **improved status visibility** for the **business**.
- Created the **Pharmacy First Service** module to assist patients with routine appointments and medications by suggesting the nearest pharmacies based on postcode during a **live call**.

Full Stack Developer, *Technolution*

Jun 2024 – Jan 2025 | Hyderabad, India

- 3D Annotation Interface:** Conceptualized and developed a 3D annotation tool for image and video mapping, enhancing interactive features and user experience.
- Led the development of a marketplace for AI models**, integrated an ELLM package and built a chatbot that suggests relevant models based on user queries, providing detailed insights on models, TestDrive functionality, datasets, and more.
- Developed the TestDrive feature interface**, enabling users to upload data to any AI model and evaluate its accuracy, integrity, and performance with real-time insights. [LINK](#)

Software Development Intern, *Charitism*

Apr 2023 – Sep 2023 | Remote, India

- Designed and implemented Chartism 2.0** from scratch using **Next.js and React.js**, developing a complete design system and reusable components.
- Requirements Gathering:** Partnered with stakeholders to capture and clarify requirements for various features, ensuring alignment with customer value and business goals.
- Coding & Optimization:** Wrote modular, optimized code, integrating efficient state management (Redux) and implementing lazy loading, caching, and SEO practices.

SKILLS

Web Programming Languages (HTML, CSS, JS, BOOTSTRAP, MongoDB, React.js, Node.js, Express.js, Next.js, SQL, REST APIs) |
Programming Languages (C, C++, Python, TypeScript, JavaScript) |
Professional skills (Teamwork, Creativity, Communication) | **CS core** (DSA, DBMS, OOPS, AIML, LLM models) |
Machine Learning & AI (Experience integrating OpenAI and Azure OpenAI LLMs for chat streams via API keys. • Prompt Engineering • Integration of **Vapi**, **Livekit**, and **Google ADK** into web applications to enable voice AI functionality.)

EDUCATION

GMR Institute of Technology,

Dec 2020 – Apr 2024 | Andhra Pradesh, India

Bachelor of Technology : Computer Science Engineering

- CGPA:** 8.09/10

PROJECTS

Mern-Real-Estate-Application :: https://github.com/venkatsaipalla/MERN_Estate,

A Modern Real Estate Marketplace with react MERN (jwt, redux toolkit)

- Build using MongoDB-Express-React-Node stack**, Tailwind CSS, **Reactjs**, included sort functionalities, maintained two-way data binding with Url and data, less reliance on 3rd party libraries, included auto updation of data in home page, **Deployment** is done with **render.com**
- Advanced Authentication:** JWT, Firebase, and Google OAuth for secure and seamless user access across 3 authentication providers.
- Real-world CRUD Operations:** Create, read, update, and delete 500+ property listings using MongoDB as a Database.
- User-friendly Features:** Enhance the user experience with upto 6 images uploads with firebase, property listing management..
- Advanced Search Functionality:** Implement cutting-edge search features to help users find what they're looking for, reduce 10% loading time by using lazy loading

ACHIEVEMENTS

- Received a **Kudos award** from the **Charitism** organization in 2023 for demonstrating exceptional ownership, teamwork, and research skills, contributing to over **2 successful projects**.
- Secured the **3rd** position over **30 teams**(member of 5) in the Deep Datathon hosted by the Department of CSE.
- Secured **AIR: 2293, College rank: 2, Graduation Year Rank [All India]: 211** in **CodeKaze(2022)** by **CodingNinjas** over **1lakh+** participants.
- Runner-up** in a website competition between 35 teams that was held at GMR College.
- Stood as the **winner** in the **Robo Race** of over **48 teams** and **second** in the **Robo Soccer** over **39 teams** held at GMRIIT.
